IN ADVANCE

SMITH & LYNDE, PROPRIETORS

JOHN S. LYNDE, EDITOR.

AGENCIES

The Daily Whig & Courier, State Street, Boston.

The Daily and Weekly Whig & Courier, 121 Nassau Street, New York, are authorized Agents for receiving Advertisements and Subscriptions at the same rates required at this office.

Advertisements left at Scollay's Building, Court-st, Boston, will be inserted at the same rates required at this office.

Subscriptions must in all cases be paid in advance. Subscribers finding this paper irregularly served will understand that the time for which they paid has nearly expired. Information by mail or express

The Law Regulating Newspapers and Periodicals.

1. Any person who takes a newspaper from the post office, whether directed in his name or another's, or whether he has subscribed or not, is responsible for the payment.

2. If a subscriber orders the discontinuance of his paper, he must pay all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount, whether it is taken from the office or not.

3. If subscribers order their papers discontinued, the publisher may continue to send them until all arrearages are paid, the subscribers are legally liable for the whole sum.

4. Any person who receives a paper and neglects or refuses to take it from the office to which they are directed, is considered as intending to defraud the publisher. The law has settled the question, that refusing to take periodicals from the Post Office with-out paying for them is prima facie evidence of intentional fraud.

5. If subscribers remove to other places without informing the publishers of periodicals regularly sent to them, and the papers are sent to the former direction, they are held responsible until they settle their accounts, and notify the publishers to stop the papers. It is the duty of postmasters to inform publishers when subscribers remove, and to whom they remove, and neglect to do so renders them liable to pay for the papers themselves.

6. The courts have decided that refusing to take a newspaper or periodical from the Post Office with-out paying what is charged, and the payment of all arrearages, is prima facie evidence of fraud.

7. In suits between publishers and subscribers, the former are not required to produce any contract with the latter. The publication of the paper for the time required by law, or the publication of the notice of the suit, is sufficient evidence of the contract, and the publication of the proof, in each case, is sufficient evidence of the completion of the contract.

Any person, or any number of persons, desiring full particulars will please call at this office, or send for a circular.

C. P. BROWN,
Claims Agent, Bangor, Maine.

BANGOR HOUSE,

O. M. SHAW, Proprietor.

The above House is one of the largest and best arranged Hotels in the State. Its location is unsurpassed, being in a central position, easy of access and nearest to the Steamboats and Railroad Stations. BOARD—$1 per day. Coaching free.

INTERNAL REVENUE

Fourth Collection District, Maine.

IN pursuance of the provisions of the Act of Congress, entitled, "An Act to provide Internal Revenue to support the Government and Pay the Interest on the Public Debt," approved July 1, 1862, I hereby give notice that I have received from the Assessor of the Fourth Collection District in the State of Maine, the annual Lists of Taxes and Duties assessed in the months of September, and the Monthly Lists for the month of October, 1862; that said Taxes and Duties have become due and payable, and that I will, attend at my office in Bangor, to receive the same for the First Division of said District, on each day from the first to the fifth regular day of December next, inclusive.

That for the Second Division of said District, ALBION K. P. GRAY, Deputy Collector in said Division, will attend at Dexter, in the County of Penobscot, on the first and second days of December; and at Milo, in the County of Piscataquis, on the fourth day; and at his office, in Dover, in said County, from the eighth to the twenty-eighth day of December, inclusive, to receive the Taxes and Duties assessed within said Second Division.

That for the Third Division, FREDERICK E. NOYES, Deputy Collector therein, will attend at his office at Lincoln, Penobscot County, on each of the days of December, from the first to the twenty-fifth, inclusive, to receive the Taxes and Duties assessed within said Division.

That for the Fourth Division, ANSELM MOORE, Deputy Collector for said Division, will attend at Ellsworth on the first and second days of December, and at Presque Isle on the fourth and fifth days; and at his office at Ashland in the County of Aroostook, from the eighth to the twenty-eighth days of said month, inclusive, to receive the Taxes and Duties assessed within said Division.

And I further give notice, that "all persons who shall neglect to pay the Duties and Taxes so assessed upon them, to the Collector or his Deputies, within the times above specified, shall be liable to pay Ten Per Centum additional upon the amount thereof."

AARON A. WINS,
Collector Fourth Collection District, Maine.

CURE FOR PIN WORMS

DR. E. G. GOULD'S

PIN-WORM SYRUP

Is the first and only remedy ever offered to the public for the effectual removal of the Ascarides or Pin-Worms, from the human system. This high reputation it has established in the last three years, and the fact that it is fast superseding all other worm remedies, is the best test of its great merit.

It affords Relief in twenty-four hours, and an Entire Cure is Warranted

without sickening, according to directions, which accompany each bottle.

This Syrup is also a most valuable family cathartic, to be always used when physic is required, especially for children. It increases the appetite, gives tone to the stomach and bowels, assisting nature in her efforts to restore health. *It is purely a Vegetable Extract, and always safe and reliable.*

Sold by HALL & RUCKEL, 218 Greenwich Street New York; in Boston by GEO. C. GODWIN & CO. 12 Hanover street, and other Wholesale Druggists. At Retail by B. F. Bradbury, W. L. Allen, S. S. Harlow, H. C. Trask, Bangor. 1sp6m dec6

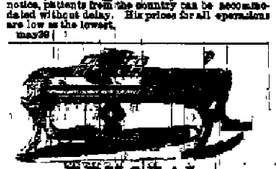
DENTISTRY.

DR. STRAW, - - - Dentist,

Has returned, and may be found at his old Rooms,

No. 52 Main Street.

He is prepared to set teeth on the "Vulcanized Rubber." This work possesses many advantages over any other. ☞ As it may be made at short notice, patients from the country can be accommodated without delay. His prices for all operations are low as the lowest. may26



REMOVAL.

☞ Ware loaned for Fairs, Levees and Private Parties, at reasonable rates sep20

ILLUSTRATED

SCIENTIFIC AMERICAN,

The Best Mechanical Paper in the World.

EIGHTEENTH YEAR.

Volume VIII. - - - New Series.

A NEW VOLUME of this popular Journal commences on the first of January. It is published weekly, and every number contains six cen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

To the Mechanic and Manufacturer.

No person engaged in any of the mechanics, or manufacturing pursuits should think of "doing without" the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

To the Inventor.

The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each week notices the official list of the Claims of all the Patents issued from the United States Patent Office during the week previous, thus giving a correct history of the progress of inventions in this country. We also advertise, every week, the best scientific journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is sent gratis free on application.

Messrs. Munn & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the editorship of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.

The Scientific American will be found a most useful and welcome friend to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are also consulted in all the new designs and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found treated in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To any subscribers: Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country. Western and Canadian money or Post-office Stamps taken at par for subscriptions. Canadian subscribers will please remit twenty-five cents extra on each year's subscription to prepay postage.

Legislature of Maine.

Reported Specially for the Whig and Courier

SENATE

Papers from the House were disposed of in concurrence.

Read and assigned, Resolve to amend a resolve extending the terms of the law for the settlement of the public lands to volunteers, approved Jan 23, 1862.

Passed to be engrossed, An act to amend the 14th section of chapter 12 of the Revised Statutes relative to local parishes; an act to amend chapter 113 of the Public Laws of 1862, relating to the assessment of taxes upon certain towns and plantations; an act to authorize Albert Trueman and others to extend a wharf into the harbor at Harpswell.

Mr. Moore called up the report of the Committee on Banks and Banking (leave to withdraw) on petition of George A Fletcher and others for a charter for a bank at Anson and the same was, on his motion, accepted.

Mr Woods called up the bill fixing the rate of compensation of jurors for the support of prisoners. The question being on the motion of Mr Wiggin to amend the bill by fixing $2,00 as the rate per week, instead of $1,75 as provided in the bill, a somewhat lengthy debate of no particular interest took place. During its progress Mr Elliott moved to amend Mr Wiggin's motion by substituting $2,25 for $2,00. This Mr Wiggin accepted. But subsequently several Senators having expressed the opinion that $2,00 was high enough, Mr. Elliott, with the consent of Mr Wiggin, withdrew his amendment. The original amendment of Mr Wiggin ($2,00) was then adopted and the bill passed to be engrossed.

Hon Joseph E. Hall, Secretary of State, came in and laid upon the table a Message from His Excellency, Gov. Coburn, as follows

To the Senate and House of Representatives

In answer to your order requesting me to communicate to the Legislature whatever facts may be within my knowledge, and to lay before the Legislature whatever papers may be under my control relating to the non-commissioning of the officers of the ununiformed militia, I have the honor to report:

The militia of Maine were enrolled under the orders of the respective Major Generals during the months of April and May last in conformity with an act of the Legislature, approved, May 10, 1862. These enrolled men were during the months of July and August last, organized into companies under existing laws, by the choice of five officers to each company. These companies numbered 648 and comprised 64,172 enrolled men of whom however, several thousand were in actual service in the field. The officers elected by these companies the time before mentioned, numbered 815.

The organization of these companies had been hastily made without uniformity as to strength of numbers, the companies varying from 100 to as far as 40 men. About one half of their enrolled numbers may be assumed to represent the number of effective men in each company at that time. After the organization had been made, some 1200 of the best of this militia enlisted into the service of the United States, reducing the effective strength of companies about one third part upon an average of the whole, and taking away a considerable number of their most active and competent officers.

In addition to these facts which I submit as giving some information upon the subject of your inquiry, I have the honor to lay before you a communication from Ex-Governor Washburn, dated at Orono, Jan 31st, 1863.

His Excellency, Gov. Coburn

My dear sir, I think you will find the papers that Senator Wiggin asks for, among the files in your room. The act that there were such remonstrances as have been referred to in debate in the Senate had, I am sure, very little influence upon the decisions to which the Governor and Council of last year arrived, in reference to the commissioning of the militia. That some disloyal men might have been elected was not regarded by me as a sufficient reason for withholding commissions from true men as well as the treasonable. But the almost certainty that important changes in the militia laws would be made the present winter, either by Congress or the State Legislature, or by both, rendered it expedient as we believed—and in his opinion he Adjutant General concurred—to *postpone* the issuing of commissions until after the sessions of 1863. No practical harm could possibly come from the postponement, but great inconvenience, embarrassment and expense might be occasioned if the commissions should be issued at that time; and so the Governor and Council deemed it wise and prudent to wait the action of the Legislature on this question. And I cannot help thinking that the considerations will be favorably regarded by true and loyal men who have nothing at heart but the good of the State and country.

Very truly yours,
ISRAEL WASHBURN JR

I find upon the files of this Department, papers alluded to by Ex Governor Washburn, which upon examination are found to relate to the issue of commissions to certain officers elect in each of 36 companies.

As regards 18 of these companies, the complaint is want of loyalty to the Government, in one or more of the officers elect in each company. In ten of these companies it is charged that the elections were illegal. In five companies the complaint is of unfitness for duty of one or more officers in each, by reason of infirmity, bad temper or defective education. In one company, it is said the officers are not citizens. And another company is simply dissatisfied, without alleging reasons. In the remaining company, it is objected to one of the officers that he has been sentenced to State Prison.

These papers, which are all of every description on file in this matter, do not in my judgment present any reason why the officers elect of the militia were not generally commissioned. I presume that they are not such papers as were contemplated in your order, and for that reason, with other good reasons, I do not lay them before the Legislature.

ABNER COBURN

Council Chamber, Feb 2, 1863

After the reading of this message, Mr Wiggin expressed his gratification that he had at last got hold of the information he wanted. If the Governor did not think it advisable to lay these papers before the Legislature, he would be the last to urge it. It would like, however, to have the names of those charged with disloyalty. He would move to lay the matter on the table for future consideration, and this motion prevailed.

After the transaction of a small amount of ordinary business, the Senate adjourned.

HOUSE.

Papers from the Senate disposed of in concurrence.

On motion of Mr Blake of Bangor,

Ordered, That the Land Agent be requested to report to this House as soon as he well can, whether there are any grants of land, donated

by the State to certain Institutions or individuals, that have not been located; and if so to what instructions or persons such grants were made, and the quantity of land in each case donated that is yet outstanding and undonated. And also whether there is any agreement or understanding with the Land Office that any of said undonated grants should be located upon any particular lands; and if so, in reference to what grants and upon what lands. And also whether any lands donated by the State have been located or deeded since Nov 30, 1861, not in the report of 1862

Mr Farwell of Lewiston, by leave introduced an act to increase the capital stock of the Franklin Company, (Lewiston)—and on his motion the rules were suspended, the bill read three times and passed to be engrossed.

Ordered on the purchase of "Putnam's Improved Eyelet Hook" (sales up by assignment.—After debate, the vote passing, the resolve was reconsidered by yeas 104, nays 3 (Messrs M Cannard, Josepa Moore and Small only voted in the negative)

The report on the Land Office came up by assignment, and the question being on the acceptance of Mr Kingsbury's amendment, Mr K presented a new form of amendment, not however materially altered in idea, but only in words

Mr Kingsbury then proceeded to address the House at length in support of his amendment and the majority report, in opposition to the report of the minority and in answer to the remarks of Mr Blake of Bangor.

On motion of Mr Cooley of Augusta, whom Mr Kingsbury had concluded his remarks, the subject was laid on the table and to-morrow at eleven o'clock assigned for the further consideration

Among the petitions presented to-day were those of Union Fire Insurance Company of Bangor for amendment of its charter, and of Shaw, Fyler & Co., and others, of Bangor, that the Standard weight of potatoes be fixed at 60 pounds. Referred to the appropriate committees

Read and assigned—An act authorizing the expenditure of money for war purposes (reported from Finance committee)

Passed to be engrossed—An act to change the name of certain persons, and an act to legalize the doings of school district No 4, in the city of Calais, and to authorize said district to raise money for certain purposes; an act authorizing the county commissioners of Hancock county to re-assess certain taxes, an act to incorporate the Vassalboro Mills County

A communication was received from the Secretary of State transmitting county canvasses of the several counties, also returns of Insurance Companies, and the same were referred to appropriate committees.

Adjourned

ACKNOWLEDGING THE CONFEDERACY A good deal has been said about the disruption of certain radical anti-slavery men to go for the abandonment of the war, and an acknowledgment of the Southern Confederacy—and a recent speech in Congress, by Mr Conway of Kansas, is cited as evidence of such intention That Mr Conway does entertain ideas of that kind, is certainly shown by his speech—the main idea being, as we understand it, that a separation now consented to, would be but temporary, and would result in new dissensions and the slavery question in the South itself new disrupture them, and ultimate re-union with the North upon a basis of a Free Republic. His language is this

The South has no solid basis It is built upon a foundation of sand. The principle of secession is one of disintegration The system is unstable from founda tion to turret. Slavery will eventually rend it asunder It develops a perpetual warfare between commerce and interest Wherever the former outweighs the latter, separation begins. Let the South become independent, and we shall see of these days see a North and South in the South The irrepressible conflict will be transferred to the other side of Mason and Dixon's line Anti-slavery will break out in Richmond. The doctrines of Jefferson, Mason and Madison will again be spoken The eloquent voices of the Sobthern Brooker or Phillips will be heard denouncing the evil that blights the land I cannot doubt that the States along the Northern line of the Confederacy will speedily become free, and eager to reunite with the North. Then the Southern line of the United States will be brought down to the next tier of Slave States, upon which the same effect will be wrought, and so the process continues, until the national ensign again floats on the breezes of the Gulf

This is an even sanguine view of the case, and one, to say the less, which would not be likely to be realized within the next hundred years, if ever Let the slave confederacy be once formed, as now attempted, and the leaders will take good care that the "irrepressible conflict" does not break out within their dominions so long as hemp grows there The new nation, if established, is avowedly to be based upon slavery as its only reliable foundation It is not likely, therefore that anti-slavery sentiment will be allowed the slightest chance to gain a reading, especially where the leaders are in the habit of giving a quick shrift and a stout cord to any one who tampers with that dangerous affair, the "peculiar institution"

But Mr. Conway appears to have been induced to adopt this plan of recognition, by a fear that the democratic party will be able to "compromise" with the rebels, and restore the Union upon a basis of unresisted submission to the slave power, and that such being their present expectation, these democrats will now be found utterly opposed to any recognition of the Confederacy He says—

The Democrats will not, of course, listen to separation for an instant. Such a suggestion in their eyes, now, a treason—a proposition to dissolve the Union—for which one ought to be hanged. They expect the question whether the Union shall be restored by force or upon terms to be submitted to the people in the usual manner, and upon that to carry the country.

Allowing this view of the democratic policy to be correct, one small circumstance seems to have escaped the notice, both of the democratic leaders and of Mr Conway himself, viz that the rebel leaders are pledged as strongly as they possibly can be, against any reunion upon any possible basis of "compromise"—that every overture of that kind from Northern "peace men," the most humble and the most abject—have been contemptuously spurned — and that no particle of evidence has yet been adduced that the South will listen to terms in any other emergency than as a conquered community. Even so would indeed be a destruction of the original plan of the leaders, which was the construction of a purely slaveholding empire that should contain within itself none of the mischievous elements of free institutions. They will never again voluntarily consent to allow any votes in their government to communities which tolerate free schools, free gospels and free men among the laboring population We have got to consider these leaders of despotism, or allow them to establish their southern empire and if the latter is done, we have soon got to fight them for our own political existence. In our judgment it is delusive for anti-slavery men to talk about recognition of the Confederacy, in the expectation that a reunion upon anti-slavery principles will ever result—or for "peace democrats" to advocate an armistice, under the supposition that a compromise can be fixed up by which the present Union will be maintained An armistice would be used by the rebels to renovate and increase their armies, and to lay in supplies for a three years war, and would certainly be disastrous to the Union cause.

Mr Conway says 'the Democrats will not now listen to a separation for an instant' Such a suggestion is now treason in their eyes' "On the war and integrity of the Union they are like adamant itself They claim to favor the war for the sake of the Union, but to be for compromise rather than war"

But suppose the rebels will not compromise? What are the these democrats then? 'Why, for war," says Mr Conway Our own opinion is, they had better be for war now War, after an armistice of six months will simply be impossible to the present position of the parties Separation must then result, and after that, if the North and West bond together, another and more bitter and disastrous war between the North and South no doubt not serious One democratic editor may however, as for the Western and Central States he puts the South (if the South would have them) and leave New England out In that case, what are our *New England* peace democrats going to do" Join the British provinces and bow up John Bull as F O Jonathan seems to indicate" What else would remain to us?

The short of the matter is, the only possible escape from one or the other of the evil results and estates is to fight and continue to fight now If the "peace democrats" would cordially give their whole strength and influence to the prosecution of the war with all the means in the power of the Government, we might *have* peace (by conquering the rebellion) in less than three months

OUR CONSUL AT MATAMORAS The New Orleans correspondent of the New York Times gives deplorable accounts of the sufferings of the Texan refugees who have fled to Mexico for safety In the course of his description he says the case of Mr Leonard Pruce, Jr, the United States Consul at Matamoras (who is well known on the city) is one which should long since have commanded the attention of our Government, and should at once be taken up by the people of the North Our sympathy for the suffering poor of Lancashire is noble, but we have, at our own doors 5, low-citizens suffering equally for years through their devotion to our cause; and such people have a prior claim upon our assistance All the poor refugees running from Texas are crowding for aid upon Mr Pruce, a man enjoying the magnificent salary of *one thousand dollars per annum!* I am credibly informed that this noble gentleman has already spent three or four times that sum out of his own means but finds himself utterly unable to afford the relief his goodness of heart dictates Are there no rich patriots and philanthropists to take this matter immediately in hand?

THE VOLUNTEER ARMY The Army Register dated August 18th, gives a list of the organization of the volunteer army The aggregate number of officers and men amounted at that date to 1,802,402 Of which 39,922 are commissioned officers and 1,062,480 rank and file At that time there were 40 Major Generals—200 Brigadier Generals—1000 Colonels—10,280 Captains, —8,880.

We presume the Army Register does not undertake to say that we actually had a million of men in our armies on the 18th of August—Both our own and the rebel armies, it is well known are reduced very greatly below their usual strength, by deaths, sickness and disease Our own effective troops doubtless outnumber the rebels largely—but neither party has probably 600,000 men actually in the field

A SINGULAR CASE The Brandon (Vt.) Union Advertiser mentions of a young woman of this place, the wife of a volunteer in the 9th regiment, who at the time of her husband's enlistment, could neither read nor write

Being devotedly attached to her husband, and cut off from all communication with him except by letter, she could not endure the thought of being compelled to submit his epistle, designed for herself alone to others to read her, and she shrunk from committing the secrets of her own heart to the pen of an amanuensis So, day after day, once her husband's absence, she has taken her two little ones by the hand, and led them to the District School, laid aside her bonnet and shawl, seated herself upon a bench by the side of her children and devoted herself to study With a brief period of time so earnestly has she set herself about the task, this devoted wife and mother has surmounted every obstacle, and has acquired the rudiments of an English education She now writes a fair hand and reads with fluency

RICH PLANTATION MANNERS A Southern planter, staying at one of our up-town hotels, some days ago got angry at the chambermaid, and in his rage forgetting that he was not on his plantation, but in a free State, brutally swore at the poor Irish girl, threatened her with personal assault, and struck her two violent blows in the face. To his astonishment the "enraged" gentleman was forced to pay two hundred and fifty dollars and the costs of a trial in court for this offence It is said however at the bar, he did not greatly procure the South to the North, for the women are whipped regularly; and probably this "Captain" Chapman—we will not say or even General Butler—has often guessed that "an ounce of right" of the sort he delights to "flog his own niger."

NEW ORDINANCE RELATIVE TO SCHOOLS A new and important ordinance relative to our city schools was presented on Monday evening, and ordered to be printed for public consideration It will be found in our advertising columns. Besides providing for the Annual election of a Superintendent of Schools by the City Council, it makes it the duty of the members to have a monthly conference or institute of instruction upon matters pertaining to their schools and professions—prohibits the practice of taking up contributions or subscriptions among the scholars (which has a bad effect in relation to the poorer children)—also prevents teachers from receiving presents from the children and prohibits the advertising in the schools of any book or other article of merchandize

These provisions will, we think generally meet public approval

REMOVED Mr S B Stone, Jr has removed his extensive stock of Dry Goods to store No 18 West Market Square, where he has greater facilities for business.

FOR, FOR, FOR Messrs C H Dunning & Co., 42 West Market Square, have a choice lot of pop corn just the thing for these long winter evenings Call and try it

☞ We are indebted to Vice President Hamlin for bound volumes of the Congressional Globe and Appendix for the second session 37th Congress

GOLD. By an error of the compositor in an item copied from the Boston Journal, gold appears to have gone up to 166½ in New York on Saturday It should have read 160½ On Monday, gold receded to 153½ as reported by our despatch, and went still lower yesterday

DEATH OF A MAINE SOLDIER IN THE WEST A letter to the Detroit Advertiser, from the Chaplain of the Michigan 24th announces the death of Sergeant Herbert Adams of Co H — Mr Adams was a son of Dr Adams of Castine and before he went west was well known in that town and in various parts of Hancock county He was a man of very estimable qualities of mind and of considerable wealth, having settled in his country's cause from motives of the highest and purest patriotism He died in hospital on the 4th of January, of a severe attack of asthma, accompanied with pneumonia It was thought he would recover until within a short period of his death The Chaplain, after announcing that he was to be buried with religious services and military honors, says "Sergeant Adams was a noble and self sacrificing soldier, and was respected and beloved by all who knew him"

BREAKING JAIL AT BELFAST. Officer Walker of this city, received a letter yesterday from Sheriff Tucker, announcing that Winslow Earn a and McDaniels, three prisoners in the jail at Belfast, escaped on Sunday night, and offering a reward for their apprehension Barnes is an old gray-headed man, nearly bald, about five feet nine inches in height McDaniel is five feet ten inches, whiskers partially gray, thick head of hair Winslow is the young man who was engaged in the great jewelry robbery at Belfast.

☞ We learn by the Journal that Capt Ripley has been re-elected Messenger to the Governor and Council by a unanimous vote. The honorable mark of approbation is well deserved, as no officer can be more courteous and faithful; gentlemanly and patient, and we are pleased to have our services so fully appreciated, even by an almost entirely new Council

LOST CONFIRMED The Bath Times says

Rev Mr Page of Richmond, who preached alternately at Westport and Georgetown, on his way from Westport to our residence a short time since, came on to the Ice to Woolwich, and as there was a thick fog, and night coming on, lost his way After driving two hours and passing several lights in the ice, he became somewhat uneasy, and seeing a light, drove forth, and to his astonishment, found that he was within half a mile of the "shore." A few minutes longer driving in that direction would have plunged him into the river, where there would have been but little chance to escape drowning.

MAINE HISTORICAL SOCIETY At the annual meeting at Augusta on the 29th ult among other interesting and valuable papers presented were the following, as we learn from the Kennebec Journal's report—

An article was read from Father Vetromyle, in relation to the manners and customs of the Indians in Maine, at the time of the arrival of the French and English

Hon. E. I Hamlin of Bangor in behalf of the heirs of the late David Perham, presented the records of the valuation and assessment of the United States direct taxes for the year 815 and 1816 for the County of Hancock, which then embraced the most of the present counties of Knox, Waldo, Penobscot and Piscataquis — Also a manuscript account of the early settlements of the town of Brewer and Orrington, also an account of the expedition against Castine, during the Revolutionary war, taken from persons engaged in the expedition, and a journal made by David Perham in 1607, during a journey from Worcester Mass., to Bedford in Pennsylvania

Mr Ham in also made an oral communication on the Sooney, in relation to the several French settlements made in and near Mt Desert There have been three attempts made by the French to make settlements about Mt Desert

In 1613, a vessel was fitted out in France to plant a colony at a place called Kadesquet on the Penobscot river The vessel was driven by stress of weather into Frenchman's Bay on the east side of Mount Desert, and finding a suitable place for settlement at the south west harbor, the vessel stopped there They landed at a place now called Fernald's Point, on the west side of Somes' Sound, about a mile from its mouth, where are now to be seen two old cellars

In the month of September a British vessel from Virginia under Capt Argall came into the harbor, took the French vessel and captured the place There was a fight three of the French were killed and several wounded The place was destroyed, the vessel and fifteen of the French were carried to Virginia, and the balance, about thirty were sent in boats to the Bay of Fundy and were taken to France in some French fishing boats

This colony consisted of 48 persons including four Jesuits priests and twenty-four persons who were husbandmen and were to remain in the country and cultivate the soil The land was fenced out with provisions for a year and was to be followed the next year by another vessel

This expedition was sent by Madame De Guercheville of Paris who held the assignment or a grant from the King of France to Du Monts in 1603, of all the territory between latitude 40 and 46 degrees, and called Acadia

The King of Great Britain in 1606 had made a grant of the same territory from 40 to 46 degrees north to the Council of Plymouth, who had made a settlement at Virginia provinces prior to 1613, and also had attempted a settlement at the mouth of the Sagadahock The conquest at Mount Desert grew out of the dispute about the title This was the first engagement between the British and French for supremacy in North America, and was continued for about one hundred and fifty years, with varied success and defeat to each party, until the capture of Quebec in 1759 when all the French possessions in North America were surrendered to the British Government with the exception of three small islands on the west side of Newfoundland, which the French still occupy

In 1688 the King of France made a grant to Du a Motte Cadillac of two leagues in front upon the bay and adjoining the mouth of Jordan a river in the town of Trenton, and extending two leagues back into the main land, and island of Mount Desert and other islands lying in front of the said two leagues upon the bay, containing about 00 000 acres

Monsieur Cadillac did what he could to make settlements upon his grant but never accomplished much, owing to the frequent disturbances of the age in, who claimed the country In 713, Acadia was ceded by treaty to Great Britain, and the French people were driven away, and all attempts towards further settlements were abandoned Cadillac was employed in improper offices by the French Government, both on the Saint Lawrence and Mississippi rivers — He was Governor at one time at Michilimackanack, and afterwards Governor of Louisiana He died in France about 1730, and up to the time of his death always wrote his name with the title of Lord of Mount Desert

In 1687, the Commonwealth of Massachusetts granted and confirmed to Madame Gregoire, the grand daughter of Cadillac and his sole heir, one to his husband, all the unsold lands within the limits of the grant made to Cadillac in 1638, being about 60 000 acres — They held the east half of the island of Mount Desert and about 28 000 acres on the main land, embraced within the present towns of Trenton, Hancock and Ellsworth

Le Gregoire and his wife settled upon a small farm on the island at a place called Hull's Cove They did not succeed very well in the picturesque management of their large estate, and in 1797, they conveyed their lands for $6000 and they fell into the possession of William Bingham who about that time had large purchases of land in the State De Gregoire died about 1810 and his wife a few years after, and theme were buried just outside of the public cemetery at Hull's Cove, but few people now living upon the island appear to know much about them, or their place of burial They died poor, having conveyed their farm and other property a short time before their decease to one by the name of Royal Gurley, for their maintenance and support during the remainder of their lives.

About 14 000 acres of the French grant lying east of Jordan river in the towns of Trenton and Hancock, was conveyed to De la Roche of Bilinque A French lady from Paris, by the name of Laval, highly educated, and possessing some property had an interest in this purchase, and they both undertook to establish a French settlement at Trenton Point which was called Frenchtown Laval They built several houses there, laid out streets, commenced a wharf, and quite a number of French refugees came from Boston and New York They had many visitors, and Laval used to say he visited the place But the enterprise fell through De la Roche died about 1800, Madame Laval returned to France, and the population scattered

[We heard recently of a party of amateur fishermen on the Kennebec, contracting one or two of the Anglican clergymen, who became lost in the fog upon Winthrop pond, a few weeks ago and wandered round all night in a drenching rain Not even a minister could lead that party in the right way.]

☞ A man named Simon Smith, who has a family in this State, and who was employed at Wheelwright's Mills, Lowell, was found near the place where he was employed, on Tuesday evening in a dying state. It is supposed he was taken in a fit He died shortly after being discovered

LAST CHANCE FOR HOUSES The people of Boulton and vicinity may be late rested to learn that Mr. A. G Hunt of this city, will soon visit their region for the purchase of army horses, probably for the first time Messrs Hunt and Farren have set out on a hundred fine horses to Washington.

☞ Not a bad conundrum for a boy of ten, is the following from the son of one of our Portland subscribers

"Why is one of the publishers of the Whig & Courier like a white overcoat? Because it is Lynde.

☞ An exchange says that the southern *rams* are now covered with *cotton wool*." We suppose that is owing to the high price of cotton, making it the most profitable product.

☞ A Mrs. Root, wife of Jerome Root township collector of De Kalb, Illinois, was frightened to death last week, by a man dressed in a white sheet, with a cow's wound around his head He knocked at her door in the evening, she gazed for a moment at the horrid figure, and then fell backwards to the floor lifeless The ghostly joker was a merchant of respectable standing

THE MAINE CAVALRY A letter from Colonel Hathaway to Gov Coburn gives the condition of the Maine Cavalry, as follows 14 sick in the regimental hospital, 34 sick in quarters and 528 fit for duty This does not include two companies detached The 17th has 100 in division hospital and 648 effective men

☞ It is satisfactory to hear the Times man say that no "personal allusion" was intended by his big hog story He is *green* to self pathery though

☞ The Lewiston Journal says that Rev Mr Knox, Chaplain of the Maine 10th, addressed the young men from the pulpit of the First Baptist Church Sunday evening, from the text,

'Approve that which is excellent' He spoke eloquently on the obligations of patriotism, among other obligations He also referred to the army, and denied the allegation that the army of the Potomac is demoralized The troops have times of despondency after defeat but this feeling is not permanent The troops are as eager for fight and victory as ever, and will fight nobly like patriots Mr Knox gave a piece of advice to the PEACEMEN, and put some very uneasy feet in their very uneasy ears.

☞ The imports into Portland for the month of December, 1862, are $213,791 against $220,634 in December 1861 and the exports $1 013,915 against $628 419 in December 1861

☞ The Commissioner of Internal Revenue has decided that the certificate of intentions of marriage each require a stamp of ten cents

We regret to earn that the health of Capt Louis O Cowan of Biddeford, recently of the Maine Cavalry, is so low that serious fears are entertained by his friends as to the result

Official notice has been received of the resignation and honorable discharge of Chaplain Phineas Higgins 21st Me, Capt George N Hunt 24th Me, 2d Lieut Marcus Rowell 24th Me Capt Jeremiah W Marsh, 28th Maine Chaplain F A Hodsdon, 24th Me, Col Rufus P Tapley, 24th Me.—*Press*

MELANCHOLY ACCIDENT. Mr Levi Sanders of Stonish was instantly killed last Saturday afternoon A heavy timber team loaded with timber for making staves, was driving across the platform leading to the mills at Steep Falls when the timbers began to crack, and Sanborn went beneath the platform to shore them up While underneath the platform it gave way, crushing him awfully, and instantly killing him He leaves a wife and two children

The captain of a steamboat, seeing an Irishman smoking aloft the funnel, stepped up to him and said

'Don't you see that printed notice stuck up there?'

'I'se mane mane that bit of tin?'

'Yes, I do'

'Shure I see it

'Why don't you follow it?'

'I haven't seen it move, it's nailed fast, I'm considerin

'I mean haven't you read that notice?'

'Divil a bit have I shure I don't know how to rade

'Well, sir, it says, 'No smoking allowed here'

'Be the powers! it does, so sure as me name, thin, for I'm smoking meself'

SPECIAL NOTICES.

CITY OF BANGOR

AN ORDINANCE in relation to the Public Schools and the choice and duties of a School Committee and Superintendent

SEC 1—Be it ordained by the Mayor Aldermen and Common Council of the city of Bangor in Common Council assembled That there shall be elected annually on the fourth Monday of March by the City Council in Convention assembled a School Committee to consist of six persons also a Superintendent of Public Schools in said city who shall be a citizen thereof, and shall ex-officio be a member of the school committee and who shall serve to the faithful performance of their duties and shall hold their offices during the time for which they are appointed and until others shall be chosen and qualified in their stead

SEC 2—Be it further ordained That the School Committee so chosen and sworn shall be invested with and have all the powers, rights and obligations pertaining to School Agents as well as those pertaining to a Superintending School Committee by the laws of the State of Maine Each member of said Committee and also said Superintendent shall receive such compensation for the services as the City Council shall annually by said date determine, which compensation shall be paid by the order of said Council upon the presentment of the bill of the City Council in Convention assembled as may be after the happening of such vacancy

SEC 3—Be it further ordained That said Superintendent shall faithfully devote himself to the duties of his station in promoting the prosperity and welfare of the Public Schools and in the different cities and towns in the city, visiting the schools and examining the books and registers of school houses He shall have regular office hours at the office of the said Committee who shall keep a record of all transactions of said Committee and of all votes and orders passed by the Board and shall also keep a record of all reports made by the Superintendent to the Board and all other papers and reports of school houses He shall have charge of all the public school houses in said city and shall make a thorough examination of the buildings and premises of each school house and the condition and wants of the same and shall make report thereof to the Board and shall also keep a record of all visits made by himself and other members of the Board and all other matters of importance and shall make a full report to the City Council annually

SEC 4—Be it further ordained That the Superintendent shall have authority and it is hereby made his duty to call all the teachers of the public schools together once at Wednesday afternoon of each month during the term time and at such other times as he may deem necessary for the public school good, for the purpose of holding a teachers' meeting for consultation together upon the best methods of discipline and instruction and he shall have power to call to these meetings such classes in the public schools as he shall deem needful for the purpose and may preside at the same and at the close of each such meeting the Superintendent shall report to the Board of School Committee the proceedings of such meeting of each of said classes

SEC 5—Be it further ordained That no subscription or contribution (except for sweeping or dusting rooms) shall be allowed in any public school nor shall any teacher accept of any present or gift by donation subscription or contribution of the pupils The public schools shall not be used as a room of entertainment for and teachers shall not permit any persons to enter their respective premises for the purpose of exhibiting any article for sale or announcing in any manner any public show or entertainment

SEC 6—Be it further ordained That all by laws ordinances, orders or parts thereof inconsistent with the provisions of this ordinance be and are hereby repealed

Decision by the Commissioner of Internal Revenue.

Our Cavalry Make a Raid on Warrenton.

How Rebel Emissaries are to be Deal. With in Missouri.

WASHINGTON, 3d.

The Commissioner of Internal Revenue has made the following decisions relative to stamps required upon all certificates of corporation stocks:

Whenever the officers of a corporation shall receive satisfactory evidence that any person, persons or party shall have become stockholders in such corporation, and shall make on the books thereof the requisite entries showing that such person, persons or party shall have become a stockholder, and sign certificate for certificates thereof, it shall be the duty of such officer to affix to such certificate the appropriate revenue stamp, the expenses thereof to be paid by the person, persons or party for whose use or benefit such certificate or certificates shall be made or assigned.

Lieutenant Albert Kautz has been ordered to the West Gulf, blockading squadron.

The Navy Department offers a reward of $60 for the arrest of Acting Ensign George Mathers of Portsmouth, who deserted from the Vandalia.

The committee on elections, in deciding upon the claims of Messrs Flanders and Harris to seats in the House from Louisiana say:

"They were elected under the proclamation of Military Governor Shepley. The principal point in doubt appears to be the time of the election fixed by him, differing from that fixed by the law of Louisiana. The fact, however, that the rebel Governor had deserted his duty, while the Constitution of the United States guarantees to every State a republican form of government, rendered it necessary for the Military Governor to assume a time for holding the election."

Sens or Doolittle to-day introduced a bill appropriating to Maine nearly $114,000, and to Massachusetts $32 868, for lands, the title to which must be granted under the treaty of Washington.

WASHINGTON, 3d.

Accounts from Fairfax Court House received today say that Colonel Wyndham has just returned from an expedition to Warrenton. He surprised the town last night, and while there sent strong patrols to the Rappahannock, to Sulphur Springs and Waterloo. The patrols found no enemy at either place.

He captured at Warrenton 60 stand of arms, which he was obliged to destroy, having no facilities for bringing them away.

WASHINGTON, 3d.

In the McDowell Court of Inquiry Lieutenant Colonel Tillston was examined on the part of McDowell to rebut a portion of the testimony previously given by Lieutenant Colonel Locke, Assistant Adjutant General to Fitz John Porter. Lieutenant Robbins was also examined at length by General McDowell to disprove the charge in the report of General Pope, who cannot attend as a witness, which was read for the court, whereon that officer alleges that General McDowell refused him aid on the 30th of August, because he be onged to General Sigel's corps.— He testified that General McDowell appeared desirous to relieve General McDowell, and conversed with General Porter relative to the arrangement of his troops to that end.

ST. LOUIS, 3d

General Sloan, commanding the Central District of Missouri, has issued orders that all bushwhackers, guerillas, robbers, Confederate recruiting officers, emissaries, &c., coming to act under rebel authorities, found in that military district, shall be promptly executed by the first commissioned officer into whose hands they may be delivered, and all persons knowingly harboring or any way abetting or aiding such parties, shall suffer like punishment, and their houses be destroyed and all the personal property on the premises seized and applied to the indemnification of Union citizens.

Any officers failing to execute this order will be court martialed for disobedience of orders.

BOSTON, 3d.

General McClellan, accompanied by his wife and several friends, visited Lawrence to day, in a special train.

His reception was the most hearty of any demonstration in the history of that city. Thousands of citizens greeted him, and amid the firing of cannon and ringing of bells, by invitation of J. Wiley Edwards, Treasurer, the General was escorted to the Pacific Mills. All manifested an interest in examining that immense manufactory.

After passing through the various operating rooms, he was conducted to the hall of the Pacific Company, where three thousand school children, who were assembled, greeted him with hearty cheers, and sang a couple of songs—"Marching along," and "The Star Spangled Banner"—with which the General and his companions seemed much pleased.

Afterwards they partook of a collation in one of the Pacific buildings, and early in the evening the party returned to Boston.

The General has been obliged to decline all invitations to visit Portland, Concord and Lowell, etc.

YORKTOWN, Va., 2d.

Nothing has transpired here of importance.

On Tuesday some excitement prevailed in consequence of intelligence that our pickets had been driven in at Williamsburg and that the enemy were approaching in force, but it proved only to be a raid of guerillas. They turned at the approach of our forces and were soon off towards Richmond.

Lieutenant Colonel Zeh of the 179th Pa regiment left here for Harrisburg, Pa. today to bring on reinforcements for that regiment.

All is harmonious in this department.

TRENTON, 31.

Mr English of Bergen county, introduced in the House to-day a joint resolution, concurring the proposed purchase and Emancipation of the negro slaves in the State of Missouri. The preambles sets forth the fact that a proposition has been made to appropriate $10,000,000 for the purpose, and resolves that while the State of New Jersey is ready at all times to contribute its quota towards defraying the legitimate expenses of the General Government, it is not willing to cause its citizens to be taxed for the special benefit or use of the States in the Confederacy, nor to permit the money of its people to be expended for objects not contemplated by the Constitution; and the State of New Jersey hereby gives notice that any debt contracted in pursuance of the appropriation aforesaid, is not binding in law or in equity, upon the State or its citizens, and will not be regarded by citizens in the light of an obligation.

The resolution was referred to the committee on Federal relations.

JEFFERSON CITY, Mo. 2d

In the joint session to-day, a few changes were made in voting for Senator, but no result was reached.

The last ballot stood—Brown 39, Phelps 41, Glover 2, Breckinridge 30, scattering 6.

LANCASTER, 31.

George Sanderson was re-elected Mayor of this city to-day.

FORTRESS MONROE, 2d

Nothing has transpired here to-day.

Wool firm—sales of 181,000 lbs fleece at 70 a 80.

Thirty-Seventh Congress:

SECOND SESSION.

WASHINGTON, 3d.

Senate.

Mr Grimes presented a memorial from the importers of saltpetre, sulphur, and the manufacturers of gunpowder, asking a modification of the tariff.

Mr Collamer, from the committee on finance, reported back the Post Office appropriation bill, which was passed.

Mr Pomeroy called up the bill providing a Deputy Regis ter for the Treasury Department.

It was amended so as to provide for an assistant instead of a Deputy Register, at a salary of $2500, and also to provide for a Solicitor of the War Department, at a salary of $2000.

The bill then passed.

Mr Lane of Kansas introduced a bill to provide for the stopping the pay of unemployed mail carriers. Referred to the committee on mail and mail routes.

Mr McDougal moved to take up the resolution offered by him, relative to the French operations in Mexico.

Mr Sumner objected to the consideration of the resolution at the present time, or to the opening of a discussion on the relations of the Government with Mexico and France in the present condition of the public business. He thought there was no time for a discussion, which at best would be useless. He objected to the discussion in public of the relations of his country with France and Mexico. Either these resolutions meant nothing or something. If they meant anything, they meant war, and no common war, but war with a great and adventurous nation, and by no consent of his should a discussion or act which could only give aid to the rebellion.

Mr McDougal said he thought it was time that the subject should be brought to the attention of the country. He thought France was already making war. Having been offered all she could ask for, France had been advancing into Mexico, with the design of conquering the country. He thought that it was the design of France to take possession of the Mexican States, then to extend her conquest further, and going through Lower California to seize California, and still further by aiding the rebellion, and by collusion with the Southern Confederacy to seize on Texas and the more Southern States, and gain control of the Mississippi River.

European nations had always drawn great wealth from their possessions in the East, and China, now the richest nation of the earth, was a great prize of the nations of the world, and the movement was only a continuation of the policy of France since the days of Richelieu.

The latest news from France stated that the expedition was expressly antagonistic to the progress of the United States in conquering Mexico. France has invaded a sister republic upon our borders and on our weakest side. It was a high handed outrage, and should meet the condemnation of every one.

He referred to the intriguing mission of Almonte to Spain and France, with the proposition to establish a monarchy in Mexico, and asserted that the attempt of France was the result of the machinations of Almonte, Miramon and Padre Miranda. At first, under the pretence of procuring payment of the debt of Mexico, England and Spain were induced to join France; but when these powers saw that France had other and ulterior designs, they withdrew with a protest against the French proceedings against the country.

All he asked was to be heard on this grave question. If he could prove that France was making an attack, not only on Mexico but on the Government, he hoped the Senate would not take counsel of its fears and refuse him a hearing.

Mr Sumner said he hoped the Senate would dare do anything that was right, he thought it would give joy to the rebels to know that the Senate was discussing the subject of war with foreign nations.

The resolutions were taken up by the following vote: Yeas—Arnold, Carlisle, Collamer, Cowan, Foot, Foster, Grimes, Harding, Harris, Henderson, Howe, Kennedy, Lane of Indiana, Lane of Kansas, Latham, McDougal, Morrill, Nesmith, Pomeroy, Powell, Rice, Richardson, Saulsbury, Sherman, Ten Eyck, Tulbridge, Wall, Wiley, Wilson of Missouri—28.

Nays—Anthony, Chandler, Clark, Davis, Dixon, Doolittle, Fessenden, Foster, Hale, Hicks, Howard, King, Sumner, Wade, Wilkinson, Wilson, Wilson of Massachusetts—16.

Mr McDougall spoke at length in favor of his resolutions, which were published about two weeks ago. He concluded that the conduct of France was a violation of international law, of all honorable treaties, and all assurances to this Government. It was an attempt to establish a Euro pean Monarchy in Mexico and to overthrow the whole commercial system of this government. He quoted from Lord Cowley to Earl Russell and also of Mr. Adams, our Minister at London, to show that they all feared the designs of France was to establish a European Monarchy in Mexico, if not from all further dealings were interdicted on the interests and honor of the United States.

He contended that from all this evidence the ulterior designs of France were manifest. France had an large mineral possessions like other nations, and had colonies fitted for settlement so as to enrich the central State, hence her policy had been for a long series of years to aggrandize herself by the possession of an empire without regard to rights, else why her uncalled for attack on Siam, Cochin China, Africa and other countries, else why was Abdel Kader dragged as were the ancient British Kings to Rome, to be exhibited to the gaze of the citizens of Paris.

In the early history of California large numbers of the disorganized guards of Mobile were sent there to attempt to unite the State of Sonora, and such had been the policy of France since the days of Richelieu.

The Government sentiment of France and England were opposed to our success in crushing the rebellion because the success of Republican institutions was always dangerous to Monarchies, and if there was any government unfriendly to us in this contest it was France.

France aspired a cotton country. She could find it in Mexico. California was not very loyal. Many disloyal men had gone to Sonora.—To day very few arms and little ammunition was left in California, and France might quietly hold that State at any time within 30 days. He thought that the Government was bound to pay some attention to this. There was no reason why we should be afraid of a conflict with France or with Spain and England combined. In California they were apprehensive of the designs of France, and he thought from the course and policy of France, there was reason for their apprehension.

The Monroe doctrine in regard to foreign interference had been admitted by all nations as sound and true. The Government was bound to sustain but doctrine she should maintain it at all hazards.

Mr Sumner opposed the resolutions and moved to lay them on the table.

Without taking action the Senate went into executive session.

Adjourned.

House.

The bankrupt bill was taken up.

Mr Kellogg moved to table it. Agreed to, 85 against 67.

Mr Roscoe Conkling who had changed his vote to the affirmative for the purpose, moved a reconsideration.

Mr Kellogg of Ill, moved to take Mr Conkling's motion, which was done by 7 majority.—So the bill was rejected.

Resolutions were reported from the Committee on Foreign Affairs declaratory of maritime rights. Postponed till the 3d Monday in February.

The bill heretofore reported to establish a national currency secured by U. S. stocks, was passed one week.

Mr McPherson reported from the committee on military affairs, a bill authorizing the President to select from the Treasury Department or from the additional paymasters of volunteers, without regard to rank, but solely as to qualification, a Paymaster General, who shall have the pay rank and emoluments of a Brigadier General. Rejected—81 to 70.

Mr Clay, from the committee on Military Affairs, reported back with amendments the Michigan and Illinois and New York canal bill which provides for the transfer of the Illinois and Michigan Canal to the United States. Commissioners are to be appointed with authority to enlarge the canal for the passage of gunboats and other boats, the improvement to commence after the plan shall have been approved by the President and Secretary of War, the work to be given to the lowest bidder, the Government of the United States to assign to Illinois on her transferring the canal $13,346,824 in 6 per cent bonds the interest payable semi-annually, redeemable in 20 years, to be reimbursed by the tolls, provision being made for the enlargement through the New York canal commissioner of the Oswego and Erie Canal to afford passage for armed vessels, etc., from the Hudson river to the Erie and Ontario canals, the Government to appropriate $3,600,000 of similar bonds.

On motion the bill was recommitted to the military committee—84 to 55.

Mr Olin from the military committee reported a bill authorizing the Secretary of War to cause to be constructed a submarine cable from Fort McHenry or Fortress Monroe to Galveston, touching at Fort Mason, Fort Royal, Fernandina, Key West and Fort Pickens, with branches from the last named fort to New Orleans.

A letter was read from the Secretary of War to the effect that an English firm was willing to undertake the contract, and guarantee success on the payment of 200 pounds sterling per mile.

Mr Elijah Ward preferred that some American firm should undertake the work and moved to table the bill. Not agreed to—48 to 68.

Pending the question on the passage of the bill the House adjourned.

THE PIRACY OF THE FLORIDA.—*Statement of the Mate of the Brig Estella.* Mr. F. M. Fickett, of Millbridge, Me., first mate of the brig Estella, (destroyed by the Florida, formerly Oreto,) arrived at New York on Thursday night, and makes the following statement, which we find in the Express:—

The schr Aphrodite brig Estella, of New York sailed from St. Croix with a full cargo of sugar and honey, on the morning of the 15th inst., for Boston. On the 19th, at 7 o'clock A. M., when about 100 miles north of Cape Antonio, the wind blowing an easterly gale, a steamer was observed on the opposite tack of the brig, which by noon was plainly visible from the deck. The brig was all the time under close-reefed sails. Captain Brown, her commander, at first thought the stranger might be the Alabama; but, as she had the stars and stripes flying, this opinion gave way to the belief of her being a Federal cruiser.

Shortly before 3 o'clock, P. M., the steamer which had come up abreast of the brig, to a distance of about seventy-five yards, fired a shot across her bow, and lowering the American flag run up that of the Confederacy. Her guns were brought to bear on the Estella, whose Captain then was made aware of his fate. The Estella at once hauked her topsail and hove to, when five boats were lowered from the Confederate steamer and pulled toward the doomed brig. The Second Lieutenant of the Florida stepped on board and respectfully saluting the Captain, remarked:—"Captain, you are a prize to the Southern Confederacy. Pack up your private property with all dispatch and let your crew to the main." This order was at once complied with, when the crew were ordered on board the steamer.

The Lieutenant sent the chronometer, charts and instruments of the brig on board the steamer, and elected from the ship chandlery stores and cargo such articles as were wanted on the steamer. He then set his crew to work in stripping the brig of part of her rigging, all her sails, except foretopgallantsail, royal, and main staysail and foretop staysail, which were sent on board. A fire was then kindled on the deck, both fore and aft, and in a few minutes the brig was a mass of flame.

When the crew of the brig arrived on the steamer they were at once informed that they would be treated as prisoners of war, and all loved the liberty of the ship, provided they would conform to the rules of the vessel. They were divided among the crew of the steamer as mess-mates, and had the same fare as their captors. The Captain of the brig was at once invited to partake of the hospitalities of the cabin, and a mess-room was at once arranged for himself as mate. The second mate was sent to mess with the subaltern officers.

The crew is a mixture of all nationalities, but the English and Irish element predominates. There are some Eastern men among them, and one of them, named Lupton, a native of Portland, Me., is the boatswain. There is also one Chinaman on board. Most of the crew have been prisoners of war at the North, and some of them were in Fort Columbus, or in the Penitentiary, near Philidelphia.

They are well drilled in the use of the guns, and are far superior to many of our merchant crews.

The Eighteenth Maine,

Col. DANIEL CHAPLIN,

A Regiment unsurpassed by any in the service, having been complimented by the War Department by being selected as the Regiment from our State to be transferred to Heavy Artillery, and being designated as the

1st Maine Regiment of Heavy Artillery,

will be recruited to the maximum of Eighteen Hundred rank and file.

The undersigned is the enlisting officer for Company D, Capt. J. V. CROSSMAN, almost exclusively.

A Bangor Company,

The Regiment is now stationed in Forts and Batteries in the Northern Defences of Washington, in health, locations, and the Artillery arm of the service, presents inducements to recruits above any other.

☞ All United States and State Bounties paid. ☞ Pay and rations from date of enlistment.

Lieut. F. E. STAW, } Recruiting Officers
Sergt J. C. LANE, } Bangor, Jan 20, 1863

First Regiment Maine HEAVY ARTILLERY

DANIEL CHAPLIN, Colonel Com'dg.

Bounty—$55 State, $25 United States, $13 Advance Pay, $2 Premium.

The Best Chance Yet Offered!

VOLUNTEERS WANTED for a full Company of One Hundred and Fifty able bodied men, for the above Regiment.

☞ By an order from the War Department, the 18th Regiment Maine Volunteers has been transferred to Heavy Artillery.

The duties and exposure of this service are much less than any other, as Heavy Artillery perform no field duty, are quartered in permanent Barracks, and drilled without being loaded down with their knapsacks, &c., the drills always being performed in Forts.

It will be borne in mind that this is the only Maine Regiment of Heavy Artillery, that it is located near Washington, in a very healthy and pleasant spot.

All State and United States Bounties paid. Pay, $13 to $21 per month, with Clothing and Rations.

Call at office in Wooelwright & Clark's Block for further particulars.

NO RISE!

**Bartlett's Circ

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula And Scrofulous Diseases.

From Emery Kiles, a well-known merchant of Portland, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet the bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Strat'on, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an affliction of humor in her eyes, and hair for years, which was very unsightly. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely known Gage, Murray & Co., manufacturers of coated & colored papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time, but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR AYER: I addicted all to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* in this family. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Watkeena, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so big that the cords became visible, and the doctors decided it to my amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt, Rheum, Scald Head, Sore Eyes.

From Harvey Seiler, Esq., late editor of the Pennsylvania Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and which by limited physicians pronounced a skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having used one bottle of your SARSAPARILLA, and applying the bottle of potash lotion, as you directed. The sore began to heal when we had used the first bottle, and was well when we had finished the second. The child's whole face healed over, grew again, and became as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Sr. Hiram Stout, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The professions are entitled to you for some of the best medicines we have."

From A. French, M. D., a eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER—My dear Sir: I have found your SARSAPARILLA the excellent remedy for *Syphilis*, both of the *primary* and *secondary* forms, and mercurial in some cases that were too obstinate to yield to other remedies. I do not know what would comply with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Zant, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, *to mercurial rheumatism*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found where the disease and suffering was greater. Five bottles of the SARSAPARILLA effected a perfect cure.

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. In some cases required, however, in aid of the SARSAPARILLA, the gentle application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Pittsburgh.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that will stand when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes from Cincinnati:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

which caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many Advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

all the Druggists in Bangor, and by merchants and dealers in medicine everywhere

Time the True Test—Experience the Best Guide.

An Old Standard Remedy.

For Coughs, Colds, Consumption, and all Pulmonary Complaints, use the

Vegetable Pulmonary Balsam,

which has maintained its high reputation for nearly twenty years, and is recommended by many of the most eminent physicians and gentlemen in the country, among whom are Rev. Josiah Litch. Philadelphia; Rev. Dr. Lyman Beecher, New York; the late Prof. Leonard Woods, Andover Theological Seminary; D. J. Thompson, formerly Secretary of State, Vt.; Drs. Merrill, Perry, Abell, Parker, Berry, and many others; by the Press, and by the largest and oldest dealers in drugs and medicines in the United States and Canada.

OPINIONS OF THE TRADE.—We know of no med'cine which has deservedly sustained so high a reputation for so long a term of years, or which more rarely disappoints the reasonable expectations of those who use it."

[Sign'd by many of the oldest and most expectable Druggists in the United States.]

Extracts from Letters received from Physicians.

"I with confidence recommend it as superior to any other preparat on for the above complaints."

"It has, superiorly over every kind of medicine used and has been used to long complaint with wonderful success."—"I can so studied it as a valuable medicine."—"It has, to my knowledge, done more efficacious medicine."—"To my knowledge, it has never disappointed the reasonable expectations of those who have used it."—"I confidently recommend its use to complainants of the chest, as equal, if not superior, to any other medicine within my knowledge."—"I tell all the poor and remedies used for coughs, I can tell that yours is the best, and hope it will be better known and more generally used."—"I have prescribed your balsam, and regard it as the most valuable and effective remedy within my knowledge."

Extracts of a letter just received from a gentleman ordering some of the Balsam.

"Syracuse, Green Lake Co., Wisconsin, Dec. 12, 1862. Messrs. Read, Cutler & Co.—Gentlemen: For some twenty years I have used your Vegetable Pulmonary Balsam in my family, but more particularly for myself. When I first used it I was given up by physicians as past cure, of Consumption, and obtained immediate help. I have always kept it since, and can certify, for the lungs, the best medicine I ever used. I have recommended it in several cases and in nearly every case it has proved beneficial. I found on a lady's table the doctors had prescribed her Ironside. Respectfully yours, H. H. ROBINSON."

PRICE—Small size, 50 cents, large, $1. Be careful to get the genuine, which is prepared only by READ, CUTLER & CO., Boston and sold by dealers generally. Dec 30—SwowlyAdvtis

American & Foreign Patents.

R. E. EDDY

SOLICITOR OF PATENTS,

Late agent of the U. S. Patent Office, Washington, (under the act of 1837.)

78 East Street, opposite Kilby Street,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Deeds, Assignments, and all Papers or Drawings for Patents, executed in legal terms, and with dispatch. Research is made into American or Foreign works, to determine the validity or nullity of Patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington. The agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed, if not immeasurably superior to, any which can be offered in the country, where the testimonials below given prove that *more successful at the Patent Office than the subscriber, and as success is the best proof of advantages and skilling*, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The business requiring a personal attendance at the Patent Office, the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These combine his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, in procuring Patents, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most careful and successful practitioners with whom I have had official intercourse."

Commissioner of Patents.

"I have full confidence in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting in the applications in a form to secure for them at once the favorable consideration of the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

"Mr. R. E. Eddy has made for me Twenty-six applications, in all, but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part, made me to recommend all inventors to apply to him, as I knew their cases could not be in more careful and able hands. I have always kept it since, and can certify, for the lungs, the best medicine I ever used. I have recommended it in several cases and in nearly every case it has proved beneficial. I found on a lady's table the doctors had prescribed her Ironside. Respectfully yours, H. H. ROBINSON."

During eight months, the subscriber, in course of his large practice, made application for more than SEVEN HUNDRED PATENTS, FIFTY ONE of which were rejected. In all cases, by the Commissioner of Patents.

Boston, Jan. 1, 1863.—Saweowly.

sp 15-62 dcowly&thp

This peculiar taint or infection which we call Scrofula, lurks in the constitutions of millions of persons. It either produces on the slightest exposure to cold, or some other exciting cause, a variety of diseases, which are commonly known as Scrofulous, such as Consumption, Bronchitis, Ulcers, Erysipelas, Scrofulous Inflammations, Boils, Pimples, Blotches, Tumors, Tetter, Salt Rheum, Ringworm, Scald Head, Sore Eyes, Enlargements of the Glands, Dropsy, Female Complaints, Fever Sores, Rickets, Canker, Diseases of the Bones, Joints, Liver, Kidneys, Bladder, and indeed nearly all the diseases that afflict mankind. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the throat, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all arising from the same origin, require the same remedy, viz.: purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With pure, rich, or uncorrupted blood, you cannot have herpetic, with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is undisputably proved by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole class of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayer's Almanac or Almanac, which is furnished to the druggists gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The importance of these considerations has led to a good years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayer's Sarsaparilla, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its use you may protect yourself from the suffering and danger of these disorders. Purge the foul corruptions that fret and fester in blood, purge out the causes of disease, and vigorous health will follow. By its powerful tonic and alterative properties this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out in any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

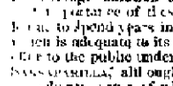
CARRIAGES!

CARRIAGES! CARRIAGES!!



THE SUBSCRIBER hereby gives notice that he has been appointed agent for the sale of Sargent Harlow & Co's Top Carriages of "Fitzpatrick," which he is prepared to deliver at his

Carriage Shop on Franklin Street,

Thereby affording to citizens of Bangor and vicinity, in want of such Carriages, an opportunity to purchase direct from the best manufactories in New England, at the manufacturer's prices.

Also, that he still continues the

CARRIAGE MAKING BUSINESS,

In its various branches, including

Repairing, Painting and Trimming,

in the best manner, and at the very lowest prices. From his experience, his facilities for doing best work and the character of his workmen, he flatters himself that to the good citizens of durable and substantial Carriages his establishment will be second to none in the State.

MR. GEO. S. WALKER,

Well known to be one of the best Carriage Painters in New England, still has the charge of his painting department, offering a very rare inducement to those who would have their work done in an elegant and durable manner, to leave their work at his establishment. *All work warranted to give entire satisfaction*, and all bills for work payable when the work is done.

B. H. THOMS.

Land in Franklin, Maine.

About 15,000 acres of Land, supposed to contain, on an average, about five thousand, of Lumber to the acre, of Spruce, Hemlock and Pine, besides much valuable hardwood, and a good growth of young timber. Fine water power on lake; near the waters, of about 1000 acres, with unfailing power to its outlet. Also, good town, for the present day, about 1000 acres of meadow, which can be mowed to grass, as grass or tillage, by straightening the Lake Water. Round the lumber is loaded. This property, by my agent, will take the lands of the purchaser, at a fair price, at a distance, and the land will be held at an immense bargain to any one who has the ready cash in hand to manage the business. Apply to

C. F. JOHNSON, Esq.,

Franklin, Me.

Or to the Subscriber, at Bangor.

HUNNEWELL'S UNIVERSAL COUGH REMEDY

HUNNEWELL'S

UNIVERSAL

BASES its real claims to the confidence of the public by its perfect simplicity, and freedom from every component which in any way pioneer restraint on its use, *Day or Night*, by Old or Young, but to find the real secret of its true character and results, to which thousands can testify, is to be made the *Pocket, Bedside* or *Nursery* Companion of all, and the enemy to all *Throat and Lung* complaints, by using it *every hour*, if necessary or when there is the least tickling in the *Throat* or disposition to *Cough*. By such freedom of use it

CURES

Coughs,

Colds,

Sore Throat,

Bronchial Complaints,

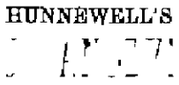
Hoarseness,

and all such, as when neglected, end in

CONSUMPTION!

☞ To Public Speakers and Singers it is most valuable, as it goes to the foundation, clears the Throat, and prevents the prostration which follows great exertion.

As a *Soothing Syrup* its simplicity calls for special attention, as the most delicate infant may take it with the greatest freedom.



HUNNEWELL'S

BLOOD PILLS!

This Valuable and Simple PILL rests for character on being the true type of a CATHARTIC,—simple, though thorough in action, seldom requiring but a SINGLE PILL for a dose, or one at night and one at morning—acts without the least griping.

AND CURES

Dyspepsia,

Indigestion,

Biliousness,

Loss of Appetite,

Jaundice,

Humors, &c., &c.

For HEAD ACHE, when caused by a foul Stomach, they are a perfect relief.

For WORMS are a perfect remedy.

As a FAMILY PILL they have no superior.

HUNNEWELL'S

ANODYNE!

IT CURES

Neuralgia,

Rheumatism,

Gout,

Tooth Ache,

Ear Ache,

Nervous Head Ache,

Distress after eating,

Fits,

Histeria,

Nervousness

Spinal Complaint,

St. Vitus Dance,

Cholera Morbus,

Pains in Stomach and Bowels.

also, the chief of all causes of disease and insanity,

LOSS OF SLEEP!

☞ To the *Sleepless Invalid* it gives the most refreshing sleep.

To Females, suffering the pains of *Monthly Menstruation*, it completely relieves, while Nature's work is undisturbed. This is of great importance, as from this source dates most, if not all, wrecks to the Nervous System, and Chronic Female Complaints.

For Stomach, or Tape Worms, it is a sure remedy.

For children, when Teething, it completely soothes the pain, by dilating with milk and rubbing the Gums. When very severe give it in 5 to 10 drop doses in milk, and is a perfect relief.

☞WARRANTY☜

My own confidence allows that agents may refund money when satisfaction is not given.

John L. Hunnewell,

Proprietor, Boston, Mass.

W. L. ALDEN & CO., Wholesale Agents, Bangor, Maine.

W. P. PHILLIPS, H. H. HAY, W. W. WHIPPLE, Wholesale Agents, Portland.

☞ Correspondence solicited from all interested in the preparation.

☞ Dealers with good reasons refrained, supplied upon consignment on application to the proprietor.

☞ The above reliable preparations are also for sale by dealers in every city and town in the United States.
